

## Contract for Services Rendered

This is a contract entered into by **Integrated Data Services** (hereinafter referred to as "the Provider") and **Brown County (Texas)** (hereinafter referred to as "the Client") on this date, **October 1, 2015**.

The Provider's place of business is **4799 FM 71E, Dike, TX 75437** and the Client's place of business is **200 South Broadway, Suite 101, Brownwood, Texas 76801**.

The Client hereby engages the Provider to provide services described herein under "Scope and Manner of Services." The Provider hereby agrees to provide the Client with such services in exchange for consideration described herein under "Payment for Services Rendered."

### Scope and Manner of Services

Services To Be Rendered By Provider:

1. Installation of *Easy Doc* software (hereinafter referred to as "the Software").
  - **Acceptance Criteria.** Upon installation of the Software, the Client will be able to post and search documents online in a manner consistent with the process outlined in the Software sales materials presented by the Provider.
  - **Completion.** If, in the sole opinion of the Client, the Software satisfies the Acceptance Criteria, then the Provider shall be deemed to have completed its installation obligations.
2. As needed, provide data support services for the Software.

### Payment for Services Rendered

The Client shall pay the Provider for services rendered according to the Payment Schedule as outlined below.

- \$1850.00 for installation and training of the Software.
- \$1000.00 for annual maintenance fee.
- Payments are due within 30-days from the date that the Provider satisfies the Acceptance Criteria.

### Applicable Law

This contract shall be governed by the laws of the County of Brown, State of Texas and any applicable Federal law.

# **Advantages of *Easy Doc* When Retrieving Documents**

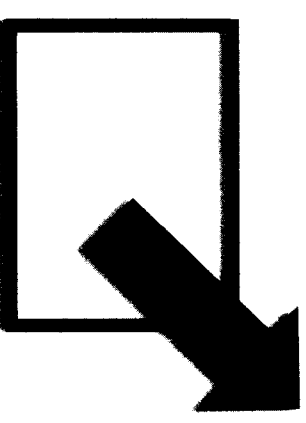

Get to the relevant record instantly with word search

Records can be searched by any department or by the public without placing a request on the IT Department, clerks or management.

More accurate search returns because *Easy Doc* does not rely on OCR

Find support documents relevant to that record

Internal document searches takes a lot less time
