## LOBBY TELLER

**We took the hassle out and put the easy in ...**

### **Save Time**

A single Lobby Teller cashier kiosk from Sterling Commissary in the lobby of your jail can virtually eliminate the time consuming task of receiving inmate deposits. The Lobby Teller system allows family members to quickly and easily make cash or credit card deposits into an inmate's trust fund account — without consuming your officers' time. It has also proven itself with a drastic reduction of money coming in the mail.

The Lobby Teller is as easy to use as a vending machine yet can save hundreds of correctional facility officer hours per year.

### **Total Integration**

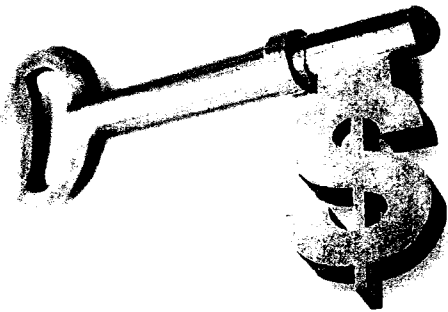

The Lobby Teller system is completely integrated with the Lockdown Resident Banking System. This means that inmate deposits put into the Lobby Teller will automatically be deposited into inmate accounts. Your staff will only need to count the cash, and verify the total.

As an added benefit, the system's integrated tracking removes opportunities for employee errors, keeping the cash more secure.

## **BOOKING MONEY MANAGER**

Booking areas are always busy, and most cash counting errors will happen here. Our booking Money Manager solves this issue. The drawer is closed every time the Money Manager is emptied, and a new drawer is immediately opened, so it can be used continually. Among its many features, the booking Money Manager:

- Accepts cash and coin during booking
- Tracks all deposits during each shift
- Allows booking deposits to be cleared at shift end
- The Money Manager will automatically post the money to the resident's account
- Reduces the workload, completely eliminates the need for officers to handle money
- Enhanced security features guard against counterfeit money or foreign coins
- FREE for your facility
- Easy to use, easy to install

Your facility's accounting Department will benefit from the Booking Money Manager. The Money Manager produces reports necessary for your Accounting Department to keep track of new account opening, and the amount of money being deposited into each account. Cash no longer has to change hands multiple times to place money in an inmate's account. The Money Manager deposits the money in one easy step.
