Brown County  
1050 W. Commerce  
Brownwood, Texas 76801

September 14th, 2016

Dear Brown County,

Thank you for allowing us the opportunity to submit a bid to the Brown County Sheriffs Office to provide Commissary Services for Brown County. Lone Star Commissary has been created at the request of a number of Texas Sheriffs, with the express goal of supplying counties with *customer-centered* commissary services. Lone Star's mission is to **know** our clients **personally**, and **individually**, and have them know us in order to maintain an open, collaborative relationship with county administration and staff.

Lone Star Commissary will provide a cost-effective, computerized Inmate Accounting System modified to the specifications of government auditor's reporting standards. We will furnish and maintain all facility hardware and software at no cost to Brown County, while giving you the highest quality commissary goods at a price comparable to retail.

Please give us a call 936-594-8333, or my cell phone at 936-661-7492 if we can provide any additional information. We hope that you join the growth of our company, which will offer you the best in modern technology, while holding true to the old-fashioned ideas.

**Lone Star Commissary**

**Where the customer not only comes first, he is still always right!**

Sincerely,

Tim Calcote  
Chief Operating Officer

October 3, 2016

## Company History

### Date Organized

Lone Star Commissary located in Huntsville Texas, was formed May 1, 2003 to provide commissary management in institutional and correctional facilities. Within the first six weeks of Lone Star's creation, the first contract for commissary service at Nacogdoches County, a facility of 300 inmates, was signed. Within the next 12 months we at Lone Star signed 10 more contracts for a total of 11 accounts with an estimated inmate count of 2700. Lone Star Commissary is well known for its professionalism and integrity. We strive to offer the finest customer service in the industry. Our Texas based company is still small enough to give hands on contact with all our customers. We presently serve 35 accounts with 9500 inmates. We have a full service computer department housed at our 13,500sq ft warehouse with 30 employees all with a mission to put the customer first.

### Company's Achievements

The company's abilities to provide commissary service can be measured by the experience of our Chief Operating Officer, Director of Field Operations, Operations Manager

Tim Calcote has served on the Board of Directors for the Texas Jail Association for four years. Tim has the honor of being the only vendor to have ever held this position for more than one year consecutively. Richard Sparkman has been asked to sit on the Texas Jail Association Board for 2016 through 2018. Lone Star Commissary contributes and supports the Texas Sheriff's Association.

### Lone Star Commissary Organizational Structure

**Tim Calcote** is the Chief Operating Officer. Has been in Commissary for 14 years. Tim has over ten years of upper management sales experience with the Texas Department of Criminal Justice. The TDCJ experience gives him the added knowledge of the unique requirements necessary when dealing with inmates.

**Richard Sparkman** is the Director of Field Operations. He has worked in Graphic Design for the Marketing Division of TDCJ. He has eleven years' experience with the Industry Division. Richards knowledge of business and problem solving along with his software knowledge is essential to the daily activities at Lone Star Commissary. He also has a Bachelor's degree in Agriculture Business from Sam Houston State University.

**Darren Cobb** is Lone Star's Operations manager. He has been with the company for 8 years working from the ground up, in the warehouse, delivering orders, purchasing products and software support. In his younger years Darren was very active in the Boy Scouts of America receiving his rank of "Eagle Scout", which has given him is fantastic work ethic.

**Jim Driscoll** is Lone Star's Vice President of Operations. He has been with the company for a little over a year, he is learning the business from the ground up, from picking orders to warehouse operations all the way to inventory management. Jim is a retired high school English teacher after 28 years of service, and brings countless attributes to the company. Jim attended the University of Texas in Austin and graduated from Sam Houston State University.

## Personnel

Lone Stars experience has been building since 2003 when the company was first originated. The accounts range in size from 44 beds all the way to 1100 beds, yet we treat them all the same. Our main staff has been associated with commissary since 2003 and several have been employed by the Texas Department of Criminal Justice prior to working for Lone Star Commissary giving more than adequate experience to handle a jail environment. Richard Sparkman who has been with Lone Star since 2004 and TDCJ for 11 years prior will be the project manager. Darren Cobb will be over all orders and warehouse operations and he has been with Lone Star for over 10 years. Then there is Tim Calcote who is the C.O.O who has been with the company since the start back in 2003, he has 10 years' work experience with TDCJ. Several of our delivery drivers are retired from TDCJ. Lone Star understands what it takes to be in the criminal justice environment.

Once again the individual who will be the principal point of contact between Lone Star Commissary and your County will be Richard Sparkman, and his contact information is as follows:

Richard Sparkman  
3364 State Hwy 19  
Huntsville, TX 77320  
Office#: 936.594.8333  
Cell#: 936.661.7121  
Email: [rbslonestar@windstream.net](mailto:rbslonestar@windstream.net)

## Security Assurance

Lone Star Commissary is always looking for ways to maintain security and control of inmates in your facility. We have listened to advice from customers for the last 13 years on how to continue to be security minded. Lone Star Commissary tries to purchase as many items as possible in clear packaging and in single serve quantities so nothing can be left open for a place to hid contraband, we pack all orders in clear plastic bags, and we also deliver in our company trucks with our drivers, meaning the inmate products never leave Lone Star hands until delivered to your facility. To further assure your confidence in the deliveries the local authorities have agreed to provide regular inspections of our facility by their canine drug team.

## Operational Statement

Lone Star Commissary proposes to receive all county inmate orders via phone-based technology in order to provide the most convenient, cost-effective processing possible. There is no cost of phone lines due to the fact all inmate access is via a secure SIP number that is routed to a server for Commissary Services only. The inmate will order commissary from the inmate phones inside the cell. Orders will be saved and housed on the Lone Star Commissary computer until ready to process and bill inmates. Inmates can order 24 hours a day 7 days a week as long as the inmate phone lines are on in the cells. Orders will be packed once a week, once the orders have been processed, inmates can start ordering on the phone for the next week's order. The Phone Based ordering process will allow inmates to create their own personal pass code which can be reset by employees, the phone base system allows inmates to check their balance, it will allow the inmates to add items to their order, to delete items as well as review their order before the order is placed. Once in the phone based ordering system the inmate has the ability to change his own pass code for security.

Our software can be integrated with your present Phone vendor that is willing to work with us to make your facility easier with less work on the staff.

The software can deduct a percentage of inmate funds when paying outstanding bills, it is easily adjustable to fit any percentage rate your facility needs.

The software also will allow for any type of restriction to be set up, such as dietary or restricted commissary. Our software is suited to your facility by your criteria, not by someone else's.

Off-site Packaging and Delivery...Once the order is received it will be packed in clear plastic bags with a double receipt placed in the plain sight. Orders are then placed in sturdy rubber maid type tubs in detailed specification given by the jail to help in distributing orders. Once tubs are packed and job is completed tubs are placed on Lone Star Commissaries climate controlled trucks and shipped out for next day delivery. All trucks and drivers are property of Lone Star Commissary.

## Software and Hardware Maintenance

We have created a schedule for our staff to be reached 24 hours a day 7 days a week. You may use us as your single point of contact whether your maintenance is related to the software or the hardware. All our computers are warranted through Dell Corporation. And our software is supported primarily from Lone Star Commissary, but is also backed by Tiger Commissary Services who is the manufacture of the software.

Our preventative maintenance can be performed electronically, without your commissary operation experiencing any downtime. As improvements and enhancements are added to the software program, you will receive all updated versions of the software at no charge.

We will provide same day service for non-scheduled service problems. Maintenance will be provided from Huntsville, Texas. Facilities using our software have been overwhelmingly positive regarding its dependability and ease of use. No facility has ever canceled their contract due to the software performance.

Our policy will be to provide you with replacement equipment, in the event of unanticipated problems. We will stand behind our computers and software, and will ensure that your Commissary is operational for you and your facility. Our unique past experience within prison management provides us the added recognition of the critical morale impact upon inmates in keeping the commissary function ongoing.

There are no specialized technical skills will be required by the County Sheriff's personnel, the Lone Star staff will provide all training. It is anticipated this will be accomplished in few hours depending on number of trainees. The installation of the equipment and training will take less than 2 days. Our staff will continue to stay on-site as long as needed in order to affect a smooth transition, and assure the facilities personnel are comfortable and completely familiar with the system. You may receive unlimited training support, in person or electronically.

Guidelines will be provided on detail step-by-step how to do day to day procedures in the software. The standard operating procedures training includes how to open an account, adding funds, the cash drawer, placing an order, billing inmates for medical, closing inmate accounts, reopening accounts, closing the shift for the day, making the bank deposit, reconciling the bank statement, paying invoices, and running reports.

## Accounting Procedures

### **Money Intake and Release**

Lone Star has the ability to provide "Web Deposit" where inmates can have funds added to their account by anyone that has a credit card and has access to the internet.

When an inmate gets released Lone Star currently uses a debit release card, this Visa debit card can be reloaded once issued to an inmate, allowing inmates to have a debit card once released from jail. Checks are still issued where the debit release card is not feasible (i.e.: inmate released to another county, to pay fines, bonds, etc.).

Lone Star Commissary will work alongside any inmate phone vendor to adequately supply inmates with commissary and phones throughout the duration of this contract.

## General Requirements

Lone Star Commissary will provide an inmate accounts system. This system is a sophisticated inmate banking system that accurately tracks inmate and facility accounts while maintaining a secure cash-free jail environment. This Microsoft® Windows-based program provides powerful Generally Accepted Accounting Principles (GAAP) reports, with dynamic updates, and polished user interfaces. The software permits a decrease in facility continuing manpower requirements, as well as reduces the initial training time needed. It will be provided at no cost to the County.

We will start the Commissary Service within thirty (30) days of the execution of the contract.

We will ensure sufficient inventory is available to meet the orders of your inmates.

We will communicate openly and frequently with the County Sheriff to ensure the delivery schedule is the one most convenient for his facility.

### **Equipment and Software**

Reliable and State-of-the-Art

We will provide your facility with the equipment to support the number of inmates in your facility, to include printers. We will install a second hard drive to provide additional security through an automatic back-up system.

### **Security**

The Lone Star commissary program is only accessible through passwords. Each individual will have their own, so there is complete tracking of all events by user. The level of access can be defined for different types of users, so that you will have complete control over

which areas your users may view or change. The system can be set to automatically delete inactive passwords, and you may add, edit or delete users to the system.

### **Recognizable Features**

Since the program is Windows-based, the learning curve is much quicker for any user that is already familiar with Windows programs, such as Microsoft Word. There are on-screen help buttons, and step-by-step guides for performing each function.

### **A Quick Look at the Software Features**

- You can open an inmate account upon booking
- Change an incorrectly-typed ID number
- Manually issue receipt numbers or automatically generate receipt numbers
- Add funds to an inmate's account
- Edit the inmate account information
- Place age and/or gender restrictions on specific purchases
- Close out an account with an automatic check writer
- Reopen an account

### **The Reports and Tools Available**

- You may view all reports on the screen and/or print them
- Details are provided for inmates filtered by location, only open accounts, or closed accounts.
- You are able to quickly find the information that you need when you need it.
- Daily transaction reports for all the money received and released
- On-screen balance report to verify you are balanced
- Indigent tracking and special ordering capabilities for indigents
- Outstanding inmate bills
- Paid inmate bills
- Complete inmate billing history
- Inmate Deposits
- Automatic receipt printing
- Detailed transactions and account balances
- Demographics of an account

### **Facility Account Management**

- Opening and editing Accounts
- Adding funds to Accounts
- Writing checks
- Billing individual facility accounts

### **Financial Management**

You may automatically write and print checks from inmate or facility accounts, and an online reconciliation feature is provided. You have the ability to void, cancel the void, or reprint checks. Complete tracking is provided for daily deposits and integrated reports are available for finding discrepancies.

## Summary

Lone Star Commissary is a new company, but our knowledge, skills, and integrity, are not. We at Lone Star are committed to SERVICE.

We believe in Strong planning, and we feel that any decision-making involving your account should have your complete employee participation

Our goal is to provide an excellent delivery of your product. We know your inmates will be relying on us, and we will give them a quality product, while dropping the price on the majority of the items. Lone Star will use name brand, high quality items, while also providing larger products at the same price.

Respecting all individuals will be the main motto by which we operate. Due to our direct work experience within TDCJ and counties, we possess a special respect for the officers entrusted with the responsibilities of managing correctional facilities. We understand the importance of the commissary functioning smoothly as a method in helping control the security side of the facility.

A Vigorous pursuit of competency will be inherent in our every action. We will personally deliver your products to ensure you receive service you deserve. We are confident that our software package is the best available in the commissary market today. We want you to feel completely confident and we'll do everything possible to assure that.

Quite possibly, the primary reason that Lone Star Commissary was founded was to assure that Integrity and honesty were basic to every aspect of our company. These are the foundation upon which we live and upon which we conduct our business.

The software system that will be used was created because of close, in-depth Communication with law enforcement officials. We want you to know us one-on-one, and feel free to communicate any concerns at any time. We will listen to you, and ensure your voice is the one that determines our actions.

Equitable treatment simply means treating people the way we want to be treated. It's an old-fashioned rule---and the right one. We will follow it unfailingly.

We at Lone Star Commissary want to partner with you and provide the best SERVICE possible. We will be the most flexible, reliable, and determined to exceed your expectations. We will provide a quality product for your inmates, in a cost-effective way for your employees, while providing a documented, trustworthy system for your auditors. We look forward to a future of growth with you.
