### **GENERAL DESCRIPTION**

- See Attached Map for Specific Locations       No Map Required for This Project

Guardian Security Solutions plans to provide a camera system to cover the Brown County Court house. This system will include a rack mounted NVR that will be installed in the courthouse security office with a wall mounted monitor and ups battery backup. A separate IP network will be installed by Guardian Security including 1 PoE switch per floor. The location of these switches will be determined by the technician. Non-Plenum wire will be installed above drop ceilings and will not be in j-hooks. J-hooks and plenum wire can be installed at an additional fee.

Training will be provided to staff at the conclusion of the project. Repeat or refresher training is available at any time for an additional fee.

Guardian Security believes this scope of work to be accurate based on industry standards and best practices. If unforeseen circumstances should dictate a change to this scope of work, a change order will be issued for approval at that time.

Guardian Security is now offering Service and Maintenance Agreements (SMAs) to keep your equipment protected. SMA plans include: equipment maintenance, quarterly password updates, monthly health checks, and more. **Ask me for more information about our Service and Maintenance plans.**
