Brownwood TX 76801

Re: Concrete CR 368

This bid is for culvert replacement and 180 ft of concrete roadway on County Road 368.

Mobley Construction LLC, will remove/salvage existing 36" pipes for future use.

Reshape channel within county right of way to accommodate new 48" culverts and re-install existing 36" pipes

Remove subgrade to a suitable depth and replace with new material as needed to meet subgrade compaction standards and density requirements.

Install/pour 180 feet of concrete roadway 6" thick, 18 feet wide with 1 foot thick by 3 feet deep toe walls, to encompass culverts maintaining proper elevation for flow of channel

#3 rebar as specified shall be spaced on 12" centers to match all bid specs. ½ inch rebar will be used in footings and culverts will be attached with 5/8" all thread

Mobley Construction LLC is a bonded, licensed and insured company. Proof of insurance and a performance bond will be provided before work begins.

Total Cost of Project including all materials is \$172,000
