VII – Item K IT Equipment

OVERVIEW

- Current IT projects need additional items to complete the project (example: New PC deployments).
- Requesting to order some items that have longer lead times that we know will be needed in the future so we have spares on hand.
- Currently trying to stabilize the Network which requires advanced battery backups and some racks to house network equipment. If these are phased out in the future, they will be re-purposed when we get to the County Agent & Veteran's services buildings.
- Request a TV on a mobile cart to be used at the Courthouse. This will be used for Courtrooms that do not currently have Video capabilities. This will also be used for Commissioners' Court, Budget Workshops, and IT Committee Meetings.

SUMMARY

1. COSTS

IT Equipment.....\$25,478.08

(Itemized details included on following pages)

April 3, 2023
(Exhibit #23)
