ADDRESS

Bryan Switzer

Brown County Courthouse

ESTIMATE

1410

DATE

01/26/2026

DATE	ACTIVITY	DESCRIPTION	QTY	RATE	AMOUNT
	04 Concrete	Concrete Steps and Overlay	1	5,000.00	5,000.00
		Demoing and removing the section of steps that are severely broken and need to be replaced. We will demo them out and repair them with a bonding agent on the existing concrete. We are also will be sealing up the existing cracks that we will be doing a full overlay one the entire steps so that they all match and help seal up all the cracks on the steps. This includes all material, equipment and labor to complete. We will also have cones and caution tape around the areas we are working to block it off from the public.			
	02 Site Work	French Drain	1	3,500.00	3,500.00
		Installing a French drain from the existing drain at the building to the street. We will have to install 6 inch PVC from there to the street. We will demo what is needed at the existing drain and at the sidewalk. We will be installing a steel grate or plate at the sidewalk so that water can flow through and will be open to the street. This will also include us sealing up the corner at the existing drain that water is going into the building. We will be using a water stop concrete to make that area water tight. We will also be diverting the downspout drain into the new French drain. This includes all equipment, material and labor to complete. We will also have cones and caution tape around the areas we are working to block it off from the public.
